

Downloadable Guide

1. Step 1: Download Required Files

- Download the raw Superstore data file from the provided link.
- Access the video tutorial link included in the same email.
- Download additional icons required for the dashboard design.

2. Step 2: Prepare Files

- Unzip/Extract the downloaded files before starting.

3. Step 3: Follow the Video Tutorial

- Play the video tutorial and follow the steps to recreate the dashboard.
- Note: The final dashboard file may not display all the data properly, as it is linked to the data source on the creator's computer. If the source changes, it will affect data fetching.
- Use the tutorial to learn how to create your own dashboard step by step.

Reminder: Creating your own dashboard using the tutorial will ensure a thorough understanding and proper functioning of all features.
